The Rivett is a great 2 bedroom house for narrow sections. There is a U shaped kitchen with additional island bench space. The generous dining room and lounge completes the open plan. Current plan shows a log burner but a heat pump could also be installed. The master bedroom has it's own ensuite, and the second bedroom has direct bathroom access. Large wardrobes in each bedroom and a linen cupboard in the hallway make storage very easy, and the laundry is located to the rear of the garage.
