The Melba (as shown) offers a modern heritage look, but can also look great in other claddings. Echoing the 'farmhouse' layout, the front door opens into the open plan kitchen, living and dining room. A separate multipurpose room is accessible off the living area.- this could be an office/media/playroom or a small fourth bedroom. The very generous master suite includes an ensuite and walk in robe, and a sitting area with outdoor access. Two further bedrooms both have built in cupboards. The family bathroom is large enough for both a shower and bath, and the separate laundry includes much needed storage.
