The Reid is a 3 bedroom, two bathroom design with great street appeal. Feature cladding can be placed near the front door area to add to the look. The open plan living area has plenty of space for everyone, with large double doors leading to the outside to extend the living space on nice days. The kitchen has a large scullery room to compliment the space and also offers access to the separate laundry. A linen closet in the hallway adds to storage space and the double garage is accessible via a door near the front door. The Master bedroom features a large deep wardrobe and ensuite, and the further two bedrooms both have built in wardrobes and close access to the family bathroom.
